

## IV NUTRIENT THERAPY

As a complement to your traditional medical care, we offer the classic Myers' Cocktail — a one-hour infusion of nutrients used to treat:

- + Fatigue and stress
- + Chronic pain and fibromyalgia
- + Asthma
- + Seasonal allergies
- + Chronic sinus infections
- + Migraines
- + Muscle cramps and spasms
- + Menstrual cramps

Administering vitamins and minerals by IV — instead of taking a pill or liquid supplement — allows your body to absorb higher concentrations of nutrients.

Our Myers' Cocktail infusion is a mixture of:

- + Vitamin B-12
- + Vitamin B Complex
- + Vitamin C
- + Calcium Gluconate
- + Magnesium Chloride
- + Folic Acid
- + Saline Solution

Every Myers' Cocktail infusion at our office is administered in our comfortable Infusion Suite and includes a same-day pre- and post-visit with an internal medicine provider. This nutrient therapy package is \$125. We do not bill your insurance.
